Computer Science Graduate & Data Analyst & U.S. Citizen

EDUCATION

Rochester Institute of Technology

Bachelor of Science in Computer Science, Minor: Mathematics
Cumulative GPA: 3.85/4.00

Rochester, NY

May 2026

TECHNICAL SKILLS

Languages: Python, C#, C, TypeScript, Java, HTML/CSS, Flutter, SQL
Core Competencies: Linux, RESTful API Design, IoT, Agile
Cloud & DevOps: GitHub, CI/CD, Docker, PostgreSQL, Cloudflare R2, Snowflake, Spring Boot
AI Dev & Tools: OpenCode, GitHub Copilot
Certifications: [Snowflake Data Warehousing Workshop](#) (Sep 2026)
[Workato Foundations Level 1](#) (Sep 2026)

PROFESSIONAL EXPERIENCE

Freelance Software Engineer

Jan 2026 - Jul 2026

Buho

Remote

- Deployed e-commerce platform on Railway with TypeScript and PostgreSQL, supporting cloud-native architecture and microservices.
 - Directed multi-agent AI development with OpenCode, guiding LLM agents to develop features.
 - Wrote CI/CD workflow on GitHub to ensure Docker containers built successfully before deploying to Railway.
 - Built data analysis dashboard for order summaries, revenue tracking, and inventory and demand overview.
- Key Skills:* TypeScript, PostgreSQL, Docker, Cloudflare R2, OpenCode, CI/CD

Embedded Software Engineer

Jul 2025 - Dec 2025

Waygate Technologies (Baker Hughes)

Skaneateles, NY

- Ran manual smoke tests and wrote automated test cases to ensure high-quality releases.
 - Processed and analyzed image/video quality data for product quality control.
 - Conducted code reviews and received feedback from team members in an agile development environment.
 - Collaborated with cross-functional teams to identify, document, and resolve software issues.
- Key Skills:* C#, Automation Testing, GitHub Copilot, Agile, DevOps, Spring Boot

Jr. Software Engineer Intern

Jun 2024 - Sep 2024

Tive Technology

Remote

- Designed and built UI for a social media mobile app using Flutter for the deaf community.
 - Worked with distributed systems using Google Cloud Platform and Firebase Database.
 - Implemented role-based access using Firestore Security Rules to enforce data isolation.
- Key Skills:* Flutter, GitHub Copilot, Google Cloud Platform, Firebase Database

Research Assistant

Sep 2023 - May 2024

RIT CAIR Lab (Computational Accessibility & Inclusion Research)

Rochester, NY

- Built HTML/CSS web app for visualizing emotion in text.
 - Researched real-time emotion detection in speech using Wav2Vec2 and Whisper models.
 - Deployed Wav2Vec2 on Google Cloud Platform for real-time affective captioning.
 - Collected eye-tracking data for accessibility analysis study.
- Key Skills:* Python, HTML, CSS, GitHub

PROJECTS

NeuralCube - Autonomous Robot

Sep 2025 - Present

Collaborator, owner: Chanel-Cheng-[Project Website](#)

Spokane, WA

- Supported the development of ESP32 firmware and wiring for motor control.
- Collaborated on the design and 3D printing of a custom robot chassis.
- Worked together to setup raspberry pi server and configuring secure remote connection.

Key Skills: C, Arduino, ESP32, 3D Printing, OnShape, Github

Big Data Recommendation System

Sep 2024 - Dec 2024

Course Project-Principles of Data Management

Rochester, NY

- Collaborated in team of 4 to build a music recommendation system using Relational database (MySQL) and Flask.
- Pre-processed and developed data pipelines for large-scale music datasets using Python and Pandas.
- Architected and implemented the database schema and API endpoints for song recommendation based on user preferences and listening history.

Key Skills: Python, Pipeline Development, Automation, Data Analysis, MySQL, Flask, Big Data, Github

Funding Website for Animal Rescue and Non-Profits

Sep 2023 - Dec 2023

Course Project-Intro to Software Engineering

Rochester, NY

- Designed UML diagrams, sequence diagrams, feature specifications, and test cases for the fund raising website.
- Implemented persistent view, model, and controller for the fund raising website using Java, Spring Boot, and Angular.
- Populated the database with items needed by animal rescue for supporters to pay for and donate to the animal rescue.
- Embedded optional Ads watching as a way for supporters to donate without paying for urgent supplies.

Key Skills: Java, Spring Boot, Angular, Software Engineering, Agile, Github

4G LTE Unlimited Distance Drone

Jan 2023 - March 2023

Collaborator, owner: Chanel-Cheng-[Github Repo](#)

Rochester, NY

- Collaborated in the development of 4G LTE remote drone for long-distance control.
- Worked together to configure reverse SSH and port forwarding for secure access to remote drone.

Key Skills: Python, Raspberry Pi, Sixfab 4G LTE, IoT, Reverse SSH Tunneling, Github

VOLUNTEER & COMMUNITY

Visiting AI Research Associate (Volunteer) — Gonzaga University

Aug 2026 - Present

Institute for Informatics and Applied Technology (IIAT)

Spokane, WA

- Research AI frameworks such as LangGraph, CrewAI, and Microsoft Agent Framework for strategic planning.
- Report on industry trends and resources for students, faculty, and researchers to utilize.

Key Skills: Python, Research, LangGraph, CrewAI, Microsoft Agent Framework, Data Analysis
